FARIBORZ KOREVLI

FRONT-END DEVELOPER

SUMMARY

I'm a Vue front-end developer with experience in many frameworks and libraries like Quasar, Vuetify, Vuesax, Bootstrap Vue, Element UI, VueX, Pinia, Web3.js, and more. In my previous roles, I developed and maintained web applications using Vue 2, Vue 3, and web3.js in SPA, SSR, and PWA modes. I have experience working independently as well as part of a team, and I am comfortable collaborating with other team members and stakeholders to ensure that projects are completed on time and to a high standard.

Additionally, I am currently deepening my knowledge of ReactJs to expand my skill set and be a strong candidate for React projects.
